Pri NAICS: 541690

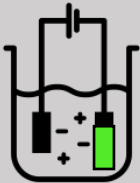

COMPANY OVERVIEW

Shaw & Townsend Innovations, LLC delivers mission-focused support that helps organizations improve performance, readiness, and execution through disciplined processes and measurable outcomes.

CORE CAPABILITIES

- Materials Chemistry
- Corrosion Prevention
- Cold Spray Glow Powder
- IP Technology Transfer

- Electroplating
- Nanomaterials
- Laboratory Management

- US Navy Experience
- Reliability & Maintainability
- Program Management
- Innovative maint. practices

- Established Network
- Professionalism
- High Impact Projects
- Risk Management

TECHNOLOGY HIGHLIGHTS

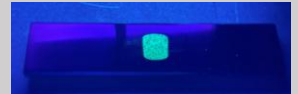

THE GLOWING TOOLS PROJECT

SAFETY & MISSION
READINESS

US Patent US20200325394A1 Durable metal electroplating composite that has passed the rigorous suite of NAWCAD Engineering tests for corrosion, adhesion, abrasion and aircraft fluid exposure.

COLD SPRAY AIRCRAFT REPAIR

US Patent US20240182723A1 Application Pending.

S&Ti FOUNDERS

CEO

Jason P. Shaw, USN ret.

Retired AMDO. 28 years exp. in aero maintenance, logistics, and sustainment. Program management. Cost, Schedule, Performance. Acquisition consulting. Risk Management. Innovation. NAVAIR, NAVSEA, Pentagon.

COO

Troy Townsend, PhD

Professor of Chemistry & Materials Science, St. Mary's College of Maryland
